1. No Exceptions, No Matter How Brief. Some parents may not want to take their child in and out of their cumbersome car seat for what they believe will be a quick stop. But the stakes are too high.

Dangers of Leaving Kids in Hot Cars and How to ... - WebMD

Tens of thousands of children are incarcerated in youth prisons every day; thousands more are also locked up in adult prisons and jails. Imagine a child locked alone in a small empty room for days, weeks, or months. Many youth prisons are called "schools," but few of these facilities provide neither quality education services nor mental health care or other services children need to heal.

Published on Aug 1, 2018 Lakeway police have released the 9-1-1 audio recording of a boy whose mother allegedly locked him in a hot car while she was passed out "drunk" in the front seat.

Child calls 911 after being locked in hot car | KVUE

Locked-in syndrome, also known as pseudocoma, is a condition in which a patient is aware but cannot move or communicate verbally due to complete paralysis of nearly all voluntary muscles in the body except for vertical eye movements and blinking. The individual is conscious and sufficiently intact cognitively to be able to communicate with eye movements. Electroencephalography results are normal in locked-in syndrome. Total locked-in syndrome, or completely locked-in state, is a version of Locke
